

Press Release 9 March 2009

Visual Interactive Systems Communications Limited - In Administration

Robert Smailes and Conrad Beighton, both of Shipleys LLP, were appointed Joint Administrators of Visual Interactive Systems Communications Limited on 2 March 2009. Visual Interactive was put into Administration by its Board of Directors who recognised that it could no longer meet its liabilities as they fell due.

The Company which trades from The Technocentre, Puma Way, Coventry, CV1 2TT, operates in a niche sector of the UK education market. It develops and provides support for computer software used by Local Authorities, education providers and individuals. Its products include the Common Application Process, Individual Learning Plan and Local Area Prospectuses. These support the 14-19 reform, which includes post 16 education application facilities and Information advice and guidance support.

The Company's business and assets have been sold to UCAS Media Limited, the commercial subsidiary of the Universities and Colleges Admissions Service. The Administrators are pleased to have achieved a quick sale so that support to the product users can continue and the value of the goodwill and intellectual property has been successfully realised. Furthermore, all eight of the Company's employees have been transferred to the new owners.
