## Internal quality control systems

### Leadership responsibilities

Responsibility for quality assurance within the Firm rests with the Audit Technical Committee, made up of five Responsible Individuals together with senior staff from both audit offices, chaired by the Audit Compliance Principal. Its main responsibility is to establish, implement and monitor the quality control procedures and policies of the Firm in relation to audit, non-audit and other assurance assignments. The Firm promotes a quality control orientated internal culture at all levels of operation, and ensures compliance with professional standards and regulatory requirements.

### Ethical Requirements

The Firm's ethics Principal has overall responsibility for the Firm's policies and procedures relating to integrity, objectivity and independence, compliance with the Auditing Practices Board ethical standards, and effective communication and guidance of these to Principals and staff.

### Acceptance and continuance of client relationships

The Firm has established robust engagement acceptance procedures for all of its prospective clients, which are monitored throughout the duration of the client relationship. They include, inter alia, a clear understanding of the client's requirements, our commitment to offering the very best quality of service and an approval process that is appropriate to the perceived risk.

### Human resources

Our HR team, headed by a principal, is responsible for the recruitment, training, appraisal and remuneration processes. Vigorous selection techniques are pivotal to our policies, together with continuing support at all levels for career development and progression.

### Engagement performance and monitoring

The audit performance of the Firm is principally monitored by its Audit Technical Committee, which is also responsible for the creation of quality control procedures and policies within the Firm and for training and dissemination of technical information throughout the audit practice. It is also responsible for internal and external reviews and monitoring, including engagement quality control and the provision of a forum for consultation on audit and other assurance engagements.

The Firm makes use of independent external consultants to assist with a compliance review of completed audit files. It is the policy of the Firm that at least one audit file is reviewed for each Responsible Individual within an 18 month period. ## **Statement on the effectiveness of our internal quality control systems**

We consider that our internal quality control systems are functioning very well.

## **External monitoring**

As noted above, the Firm is subject to regular external monitoring by the QAD. The last such review took place in June 2018, and in December 2018 the QAD confirmed completion of their review. The firm has not faced any FRC or ICAEW disciplinary proceedings during the year.

The Firm's financial statements are audited by SRG LLP, Chartered Accountants.

The Firm did not have any listed clients that fell within the remit of the Audit Quality Review of the FRC during the year ended 30 April 2019.

## **Public interest entities**

During the year the Firm did not express an audit opinion on the financial statements of any which were traded on a regulated market in the European Union.

## **Independence procedures and practices**

The Firm maintains internal policies and procedures to preserve its independence and to act with integrity and objectivity. All Principals and staff are required to complete, firstly upon joining and annually thereafter, statements of independence and confidentiality, as well as confirmation of fit & proper status. Any subsequent changes must be notified to the HR and Ethics Principals when they occur. Any occasions of actual or perceived threat or conflict of independence or any other ethical issues will be documented by the Ethics Principal and a plan for their elimination be formulated and acted upon. Compliance with independence procedures and practices is monitored at all stages of the audit relationship, starting at the point of client acceptance. It is then reassessed during the course of each audit or when client ownership or governance changes occur. There are strict procedures for the rotation of principals who have been acting for audit clients over a prolonged period, as required by the ethical standards. There is mandatory Audit Engagement partner rotation after 5 years for audits of public interest and other listed clients. For all other clients, consideration of the need to rotate after 10 years is made through discussion with the Ethics Partner. Independent partner reviews are undertaken if rotation is not considered necessary.

There are also detailed procedures for the provision of non-audit services to audit clients.

Compliance with our independence procedures is ongoing throughout the year. In addition, an internal review of independence practices within the Firm is carried out annually.
